Quote by Mr Poh Boon Sen (傅文生), Director, Smartscan Machine Pte Ltd

“As a local SME, Smartscan Machine Pte Ltd, is delighted to do our part against COVID-19. The licensing agreement with GovTech will help elevate Singapore’s technology capabilities in the deployment of a cost-effective mass temperature screening solution in both local and overseas markets.”

Quote by Mr Daniel Soh (苏财发) , Managing Director, Scanmed Technology (S) Pte Ltd

“The SPOTON mass temperature scanning solution is an effective and affordable thermal scanner to help safeguard the public from COVID-19 as normal life and activities progressively resume. We are delighted to work with GovTech to deploy this made-in-Singapore innovation in our collective efforts against the pandemic.”

Quote by Mr Anthony Ong (王瑞隆), Group CEO, ADERA Global Pte Ltd

“As a Singapore company, ADERA is proud to be appointed as one of the distributors of GovTech's SPOTON temperature screening system. ADERA has a strong track record in project implementation in the field of AI-enabled digital automation, digital identity and digital payments. ADERA’s track record, coupled with its extensive reach in Singapore and the region, positions ADERA to be a reliable partner of GovTech. ADERA is proud to be able to play a role in fighting this pandemic by helping to make the environment safer with the deployment of SPOTON.”

Quote by Ms Wee Wei Ling (黄玮玲), Co-founder & Director, Extra•Ordinary People Limited (异彩•人生)

"In our mission to journey with the special needs community, Extra•Ordinary People is committed to creating and providing employment opportunities for individuals with special needs, so that they have a means of livelihood and through employment, are recognised for their abilities and integrated into the society. In Extra•Ordinary People’s inclusive and collaborative employment model, persons with special needs work alongside individuals from low-income families and other segments of society to assemble the device, banding various sectors together delivering a product that is in critical demand in these times. Extra•Ordinary People will be partnering and collaborating with CaregiverAsia, Embrio Enterprises, Evercomm, SingPost and UOB for the SPOTON smart thermal scanner project".
