

## FACTSHEET

### MyInfo makes Government digital transactions faster and easier

MyInfo is a **consent-based** platform where users who choose to use the feature will only need to provide their personal data once to the Government, instead of doing so repeatedly for every electronic transaction. This will help them to save time, avoid mistakes, and eventually do away with the need for physical documents as verifications to complete transactions.

The MyInfo pilot began from late January until April 2016. MyInfo is now available across 18 digital services, including applications for new flats, Baby Bonus scheme and polytechnic admissions. The full list of participating agencies and their available digital services is shown at Annex A.

GovTech and MOF will partner with the Monetary Authority of Singapore (MAS) to explore extending MyInfo to the banking industry, starting with Development Bank of Singapore and Standard Chartered Bank. This Proof-of-Concept will study the potential to simplify the way citizens currently transact with banks by reducing the need to provide additional personal documents for verification.

By 2018, most relevant SingPass-authenticated e-services will be linked to the MyInfo platform. We are also looking to increase the number of personal data items that could be shared through the platform, and expand the use of MyInfo to other secure commercial transactions.

#### Why Use MyInfo?

Users of MyInfo will no longer need to fill forms for participating online transactions if the information had already been captured previously. By clicking the 'Retrieve MyInfo' button located on these online forms, the participating digital service will be able to retrieve the necessary data fields from the user's profile for automatic field population.

Consent will be sought from users before any data is transferred. Additionally, users can choose to be alerted whenever an e-service uses their personal data.

#### How Do I Sign Up?

Users can register for a MyInfo profile at [www.myinfo.gov.sg](http://www.myinfo.gov.sg) using their SingPass accounts. Once registered, the personal information will be retrieved from various participating Government agencies to form the user's basic profile within 1 working day. Users can also choose to enhance their basic profiles by providing additional details such as their highest education level or family relationships for even greater convenience during future transactions.

By July 2016, users will have to log in via an additional 2FA mechanism, which will provide added protection to safeguard the data within their profiles. In future, there will also be a reduced need to provide supporting documents for verifying users' personal details. Through MyInfo, users are provided with an opportunity to enjoy a more seamless experience when performing online transactions.

## Annex A – Available e-Services from Jan 2016 onwards

|     | Agency  | Digital Service                                      | Availability           |
|-----|---|--|------------------------|
| 1.  | Inland Revenue Agency of Singapore (IRAS)     | Updating of contact details                          | Available End-Jan 2016 |
| 2.  | Ministry of Social & Family Development (MSF) | Casino Exclusion System                              |                        |
|     |   | Casino Visit Limit System                            |                        |
|     |   | Office of the Public Guardian Online Registry Search |                        |
|     |   | Office of the Public Guardian LPA                    |                        |
|     |   | Baby Bonus Scheme System<br>Parent Portal            |                        |

| 33 | Name of School Attended                    |  |   |  |

## **About Government Technology Agency of Singapore**

The Government Technology Agency of Singapore (GovTech) is a new statutory board formed in October 2016 after the restructuring of the Infocomm Development Authority.

GovTech works with public agencies to develop and deliver secure digital services and applied technology to individuals and businesses in Singapore. GovTech builds key platforms and solutions needed to support Singapore as a Smart Nation. As a leading centre for information communications technology (ICT) and related engineering such as the Internet of Things, GovTech also enhances the capabilities of the Singapore Government in these domains.

For more information, please visit [tech.gov.sg](http://tech.gov.sg) or follow us on [Facebook.com/GovTechSG](https://www.facebook.com/GovTechSG) and Twitter @GovTechSG.
